EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William C. Rowland on June 14, 2004.

The application has been amended as follows:

Non-elected claims, claims 36-41 have been rejoined, since the independent claim has been found to be allowable.

Claims 42-42 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: see applicants' remarks of paper filed on June 03, 2004. None of the cited references teach or suggest the increase of wet and dry strength by the Uronic reaction of cellulosic fibers as claimed. Note that it has been interpreted that the increase of wet and dry strength of the paper made with the modified fibers is solely due to the fiber modification as claimed and not to addition of wet and/or dry strength agents. Note also that the closest reference, US Patent No. 6,228,126 B1, is not a prior art, (because of the filing date).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
